TALKS IN PRACTICE

27-28 SEPTEMBER 2018

UNIVERSITY OF BORDEAUX, FRANCE

OVERVIEW

Recent and on-going changes in the drug safety world put you in front of exciting but demanding new challenges. Real world data and real-world evidence are playing an increasing role in health care decisions.

You now have to ensure that you have up-to-date knowledge and skills, you fulfil regulatory expectations and you master practical implications, all this at the worldwide level.

Being involved in the field of Pharmacovigilance and Pharmacoepidemiology, you are at the heart of fruitful crossed exchanges between pharma companies, regulatory bodies and research organisations, with the common goal of improving patient safety, rational use of drugs and related regulations compliance.

For ten years, Eu2P has been familiar with joining industry and regulatory perspectives from all over the world, in order to stimulate varied and multi-focused debates relevant to you and to the different stakeholders' interests and needs.

Join the Eu2P TALKS IN PRACTICE and be sure to be up-to-date and confident in Pharmacovigilance and Pharmacoepidemiology especially regarding the:

- ✔ Real World Evidences and the impact on decision making
- ✔ Role of the QPPV and the evolution of the Pharmacovigilance System Master File
- ✔ New EudraVigilance (EV) system: Signal detection and access policy
- ✔ Risk Management Plans
- ✔ Surrogate endpoints
- ✔ Pharmacoepidemiology in practice
